

Buyouts & Growth – Netherlands

Since it was established in 1988, the Buyouts & Growth team in the Netherlands invests in mid-market companies with excellent management teams, operating in particular niche markets. Local investment managers are committed to developing a trust-based business relationship with their future business partners. In addition to providing equity capital as a financial investor, Gimv supports portfolio companies with advice and know-how gained from investing in more than 100 companies.

Investment focus

Meeting investment needs of:

- family-owned companies seeking a financial partner or facing succession issues
- (financial) shareholders seeking liquidity
- corporations wishing to divest particular assets or spin off certain divisions
- companies in need of financial means to accelerate growth

Providing different financing types:

- equity participations (majority or significant minority stakes)
- mezzanine financing (for buyouts or growth financing)

Investment criteria

- excellent and committed management
- positive track record
- alignment of interests between key partners
- wide range of industries with attractive dynamics
- medium sized businesses with enterprise value up to EUR 150 million
- strong market position or attractive niche player
- promising growth perspectives

Portfolio

BMC Groep, Claymount, De Groot International, HVEG (Low Land Fashion), Numac, OGD (Operator Group Delft)
