

# Venture Capital - Technology

Gimv provides promising companies in the technology sector with the financial means they need to develop and market groundbreaking products and technologies, realise their international ambitions or expand their activities. Technology not only offers financial support, but also helps its portfolio companies develop strategic relationships, encouraging growth and expansion and guiding them through various financing rounds. Investee companies can rely on Gimv's network of technology entrepreneurs, industry experts and international venture capitalists, who can help them accelerate their growth.

## Investment criteria

Technology invests in companies that meet the following criteria:

- lead by committed, ambitious management teams
- developing innovative products or services
- having a sustainable competitive advantage
- demonstrating high growth and profitability potential

## Investment focus

With investments up to EUR 25 million and an investment horizon of 4 to 7 years, Gimv meets the investment needs of mainly European early-stage as well as late-stage companies, specialised in:

- telecommunications
- software
- electronics
- other technology-related areas

As a lead or co-lead investor, or investing in syndication with tier one venture capitalists, Gimv pursues a minimum absolute profit potential of EUR 10 million.
