

Mega International

MEGA International is a leading global software and consulting services company, which helps companies improve their business and IT agility to innovate in the digital world. The company offers a range of enterprise governance software solutions, called Hopex, to help its customers address challenges posed by regulation & compliance, IT complexity, enterprise transformation and new technologies (e.g. digital transformation, business model innovation,...)

MEGA has a global footprint with 9 offices around the globe. Moreover, it works with 25 business partners around the world. The company's customers are mostly big, complex - often global - companies and government organizations, e.g. Fannie Mae, Crédit Agricole, UniCredit, Nissan, Eurocontrol, United States Department of Agriculture, SBB CFF, P&G, Gilead or Colruyt.

When ambition meets ambition

Globalisation, digitalisation, consolidation and regulation are driving the need for large corporations to have a clear view on and the ability to manage their IT systems. **MEGA's leadership team together with its employees have the vision and the long experience in creating value for their customers by serving their needs and increasing their competitive positioning.**

During the last years, our **Smart Industries team has built a successful track record within the sector of ICT companies, engineered products and advanced manufacturing.** MEGA's entrepreneurial mindset totally fits with this platform strategy: as a recognized leader in a growing market, the company is recognised by its customers and prominent market analysts.

Together, we build a leading company

Over the coming years, we will contribute to **accelerating MEGA's growth in the US** and support the company in establishing an excellent track record in its already initiated transition to a SaaS* offering. We will also support MEGA's ambition to foster the growth among its existing clients and by signing up new customers and to apply its software tools to even more applications towards a broader audience. Besides, we will driving change and management attention to guide MEGA in its quest for growth.
