

Impact

IMPACT was founded in 1999 and was owned by the Dutch Humares Group since 2006. As a provider of professional services, the group focuses primarily on technical and construction jobs as well as bottleneck functions in the administrative segment. With a focus on quality and their recruiters' technical roots, IMPACT and Nova provide a competitive edge.

When ambition meets ambition

IMPACT connects employers and specialists who are looking for technology, construction or office jobs. This originally Belgian company is strongly committed to digital transformation: candidates can apply and interview online, while recruiters also use smart technology to accurately match jobs and candidates. IMPACT also recruits talent internationally to counter labour market scarcity.

Together we build a leading company

We at Gimv are supporting the group's ambitious expansion plans with a focus on buy-and-build; the group has made several acquisitions since Gimv came on board in 2018.
