

## Internship Life Sciences Analyst - Gimv

### Our Company

Gimv is a European investment company, listed on Euronext Brussels, with almost 40 years' experience in private equity and venture capital. The company currently has a portfolio of EUR 1.1 billion of investments in around 50 portfolio companies, with combined turnover of EUR 2.75 billion and 14,000 employees.

As a recognized market leader in selected investment platforms, Gimv identifies entrepreneurial, innovative companies with high growth potential and supports them in their transformation into market leaders. Gimv's four investment platforms are Connected Consumer, Health & Care, Smart Industries and Sustainable Cities. Each platform works with an experienced team across Gimv's home markets of Benelux, France and DACH, supported by an extended international network of experts.

### Position at Gimv within the Life Sciences team

Gimv has been active in Life Sciences since 1982, investing in more than 80 companies and generating a consistent top tier IRR. Successes include Ablynx, Plexxikon, Devgen, Covagen, Prosonix and Endosense.

Embedded in the broader Health & Care platform, Gimv's Life Sciences investment team is well established and recognized as one of the leading European life sciences venture capitalists, investing in biotech and medtech. The team has built a successful track record in identifying high potential innovation across the life sciences sector, and providing capital, expertise and networks to accelerate product development, commercialization and successful exits for our portfolio companies. To date, Gimv manages an exciting life sciences investment portfolio and is actively pursuing new investments.

### Your Role

We offer a 6 months internship position in our Life Sciences team in Antwerp. You will work on dedicated projects, primarily related to new investment opportunities. You will participate in due diligence, assessment of scientific and product development plans, analysis of markets and competitive environments, evaluating and benchmarking business models, and landscaping of therapeutic areas/indications. As an intern you will support the team throughout the full procedure of new investment opportunities, and will also have the ability to:

- Become familiar with industry standard research engines and databases
- Develop your investment and financial analysis skills
- Gain industry insights through close collaboration with our experts
- Develop your soft skills and network through internal and external meetings

We offer a market standard compensation package, completed with on-the-job training, as well as a challenging environment with room for own initiatives.
