

Job profile – Analyst Sustainable Cities, Belgium

About Gimv

- Gimv is a European investment company with over forty years of experience in private equity. Listed on Euronext Brussels, Gimv currently manages a portfolio of around 55 companies with a combined turnover of EUR 2.8 billion and 15.000 employees. Gimv identifies ambitious and innovative companies with high-growth potential and actively supports them in their transformation into market leaders and establishing long term success.
- Gimv's four investment platforms are Consumer, Smart Industries, Sustainable Cities and Health & Care. Each of these platforms work with a skilled and dedicated team across Gimv's home markets – Benelux, France and DACH– and can count on an extended international network of experts.
- The Sustainable Cities platform invests in companies that enable a more sustainable and efficient society in four core areas: energy & environment, infrastructure & construction, transport & logistics, and business services.
- Gimv celebrates diversity and is committed to creating an inclusive environment for all employees.

Position summary

- The successful candidate will support the members of the Sustainable Cities team in deal sourcing, deal making and portfolio work. The candidate will have Belgium as their primary focus and will operate within the international Sustainable Cities team
- Location: Antwerp, Belgium. Frequent interaction with and occasional travel to Gimv's other offices (Paris, Munich, The Hague)

Main responsibilities

- Assist senior team members in transaction execution (e.g., market analysis, business model understanding, financial modeling, developing presentations, valuation, general project management)
- Develop an overview of relevant sector trends, identify interesting new sub-segments or business models
- Perform market mapping and identify attractive, high-potential investment targets, with a focus on Belgium
- Attend relevant business and networking events, and build relationships with peers in the industry
- Support senior team members in managing the Gimv portfolio companies

Skills

- Well-versed in financial modeling and valuation methodologies
- Good understanding of accounting principles
- Ability to analyze quantitative and qualitative data; experience with big data analysis is a plus
- Excellent written and spoken communication skills; ability to synthesize complex information
- Team player
- Strategic thinker
- Quick learner
- Entrepreneurial and commercial spirit
- No-nonsense, hands-on and positive mindset
- Fluent in Dutch and English, proficiency in French and/or German is a plus

Qualifications

- University master's degree (e.g., engineering, business, economics)
- 1-3 years of relevant professional experience in private equity, investment banking, transaction services, corporate M&A or top-tier consulting
- Affinity with the Sustainable Cities business sectors (energy & environment, infrastructure & construction, transport & logistics, and business services)
- Experience in an international organization is a plus

What we offer

- Diverse scope of work and steep learning curve
- Dynamic, collaborative and international work environment
- Non-hierarchical organization with senior exposure, both within Gimv as well as towards our portfolio companies
- Flexible working options
- Attractive remuneration package
