

## OUR COMPANY

Gimv is a leading European investment company with >40 years' experience in private equity and venture capital. Listed on Euronext Brussels, Gimv currently manages a portfolio of around 60 companies with a combined turnover of EUR 3.7 billion and 20.000 employees.

Gimv's sustainability journey encompasses two pillars:

- Gimv as a responsible company with focus on the sustainability of our own operations
- Gimv as a responsible investor integrating sustainability in our investment strategy and in the dialogue with our portfolio companies in a data-driven way.

Gimv's sustainability journey so far was externally validated with consecutive low ESG risk ratings from Sustainalytics. Next to that, in March 2023, Gimv was included in the Euronext BEL ESG Index.

## YOUR ROLE

We offer a **6-month Sustainability Reporting Internship** with **start in Q4 2023** in our **Antwerp office (BE)**.

As a Sustainability Reporting Intern within Gimv's Finance Team, you will be working in the Gimv Antwerp office and reporting to the Sustainability Manager.

Together with the Sustainability Manager, you will be overseeing Gimv's annual ESG portfolio survey and be responsible for the monitoring of the quality and consistency of the submitted information as well as translating the data into internal and external ESG reports.

Next to that, you will be involved in Gimv's own CSRD readiness path by contributing to several building blocks, such as the double materiality assessment or the further refinement of Gimv's non-financial data collection and reporting processes.

This internship is a unique opportunity to discover the world of private equity and venture capital and to collaborate with the other colleagues of Gimv's Finance Team and Gimv's investment teams in all our countries as they are all closely involved in the collection of sustainability data of the portfolio companies.

We offer a market standard compensation package, completed with on-the-job training, as well as a challenging environment with room for own initiatives.

## YOUR BACKGROUND

- You have hold or are in a 3rd year Bachelor or Master's degree with a finance, economics, engineering, or environmental background.
- You have a natural interest for sustainability
- You love to dive in data and summarize them in clear dashboards
- You are analytical, critical and accurate while able to keep a holistic/helicopter view and have strong analytical skills.
- You are able to measure and track ESG-related key performance indicators and assess their evolution.

# Sustainability Reporting Internship

- You have excellent communication skills at all management levels. Professional proficiency in English is a must, French or any other language is a plus.
- You have excellent PC skills with emphasis on MS Excel. Prior experience with ERP systems is a plus.
- You are looking for hands-on experience, eager to learn and foster teamwork.
- You are passionate about numbers and IT Tools, enjoy applying technology.
- You have a positive and proactive attitude.
