

PRESS RELEASE (EN)

Belgian healthcare ICT integrator *Televic Healthcare Solutions nv* joins Dutch leading MSP Esprit ICT

30 July 2025 – Izegem, Belgium / Veenendaal, The Netherlands

Esprit ICT Group, a Dutch leading provider of integrated digital workplace solutions and the market leader in the Netherlands for critical alarm solutions in the care and cure market, today announced the acquisition of *Televic Healthcare Solutions NV*, a leading ICT integrator in the Belgian healthcare sector. The acquisition is effective immediately.

This strategic move strengthens Esprit ICT's ambition to expand its market leading position in critical alarm systems from the Netherlands to the Benelux, and beyond, by combining expertise, resources, and innovation, both organizations aim to deliver even greater value to healthcare providers across Belgium and the Netherlands. The acquisition aligns seamlessly with Esprit ICT's growth strategy, which focuses on broadening expertise, increasing scale, and further integrating specialist IT services. The acquisition marks the first expansion outside of the Netherlands.

Although *Televic Healthcare Solutions NV* will now be a part of Esprit ICT, the Business Unit that develops and manufactures innovative Nurse Call Communication systems (Televic Healthcare Products) will remain part of the Televic Group and will further focus on international growth through a resellers network. Esprit ICT and Televic Healthcare Products will continue to work in close partnership to drive further innovation for their customers.

"This acquisition represents a strategically valuable addition to our organization. The cultural alignment between both parties provides a solid foundation for collaboration and by combining our complementary expertise, we jointly strengthen Esprit ICT's healthcare portfolio and increase our added value for clients and partners in the healthcare sector." states Martijn Boshuis, MD of Esprit Healthcare.

"We believe that the integrator part of our business (Televic Healthcare Solutions) will thrive with Esprit ICT, who has a laser-sharp focus on ICT integration. This way, our Business Unit "Televic Healthcare products" can focus on what Televic does best: creating innovative products and systems that drive international, sustainable and profitable growth", said Thomas Verstraeten, CEO of Televic Group

About Esprit ICT

Esprit ICT is an independent ICT partner for healthcare, industry, government and business markets. It focuses on all kinds of services around the digital workplace, communication solutions, ICT secondment and digital care solutions. It focuses on supporting organizations to improve work processes, accessibility and collaboration with smart technologies.

Through Esprit Healthcare, it acts as a specialist provider of critical alarm solutions and services to the healthcare sector (both care and cure). It is one of the few companies in the Netherlands that advises on, supplies, integrates and manages the specialized critical alarm solutions in complex healthcare settings.
